

Forex System Development Workshop Basics #2

BASICS # 2

COMPONENTS OF A WINNING TRADING SYSTEM

Fill out your current thoughts on the different components of your trading system.

As you complete the worksheet, treat it like a creative exercise and constantly ask the following questions:

- **What parts of your system are working well?**
- **What parts do you need to have?**
- **What problems can you identify?**
- **Where can you simplify?**
- **What is the reason for using the method you do?**
- **Why does it work?**

Throughout the rest of the course, you can take inspiration from the traders to fill out this document so you end up with a set of high-performance rules for a trading system that suits you.

Each rule you add into your plan should help you achieve one or more of your objectives from Session #1.

FCST #9 - [Damn Good Set-ups](#)

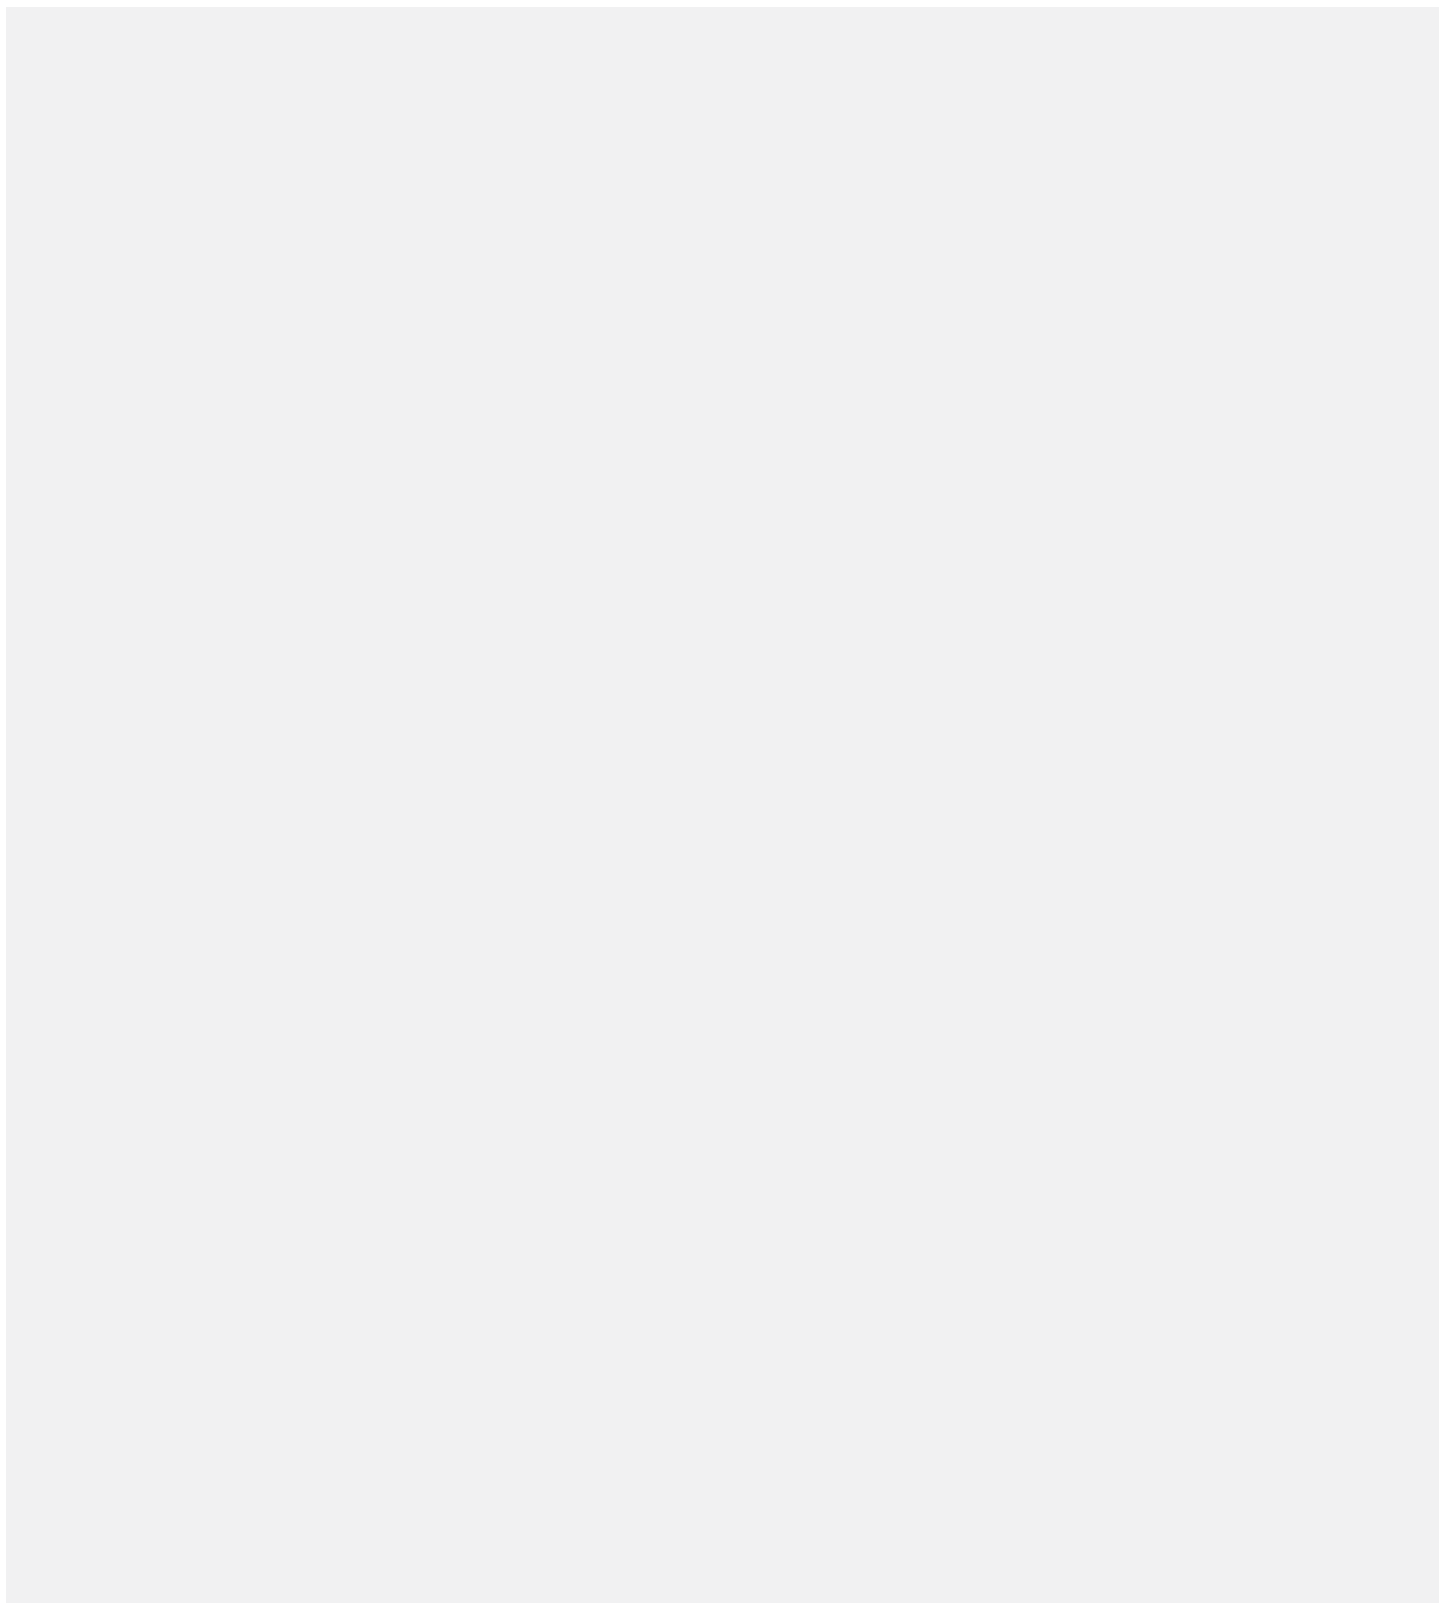

FCST #10 - [How to Stalk a Low Risk/High Reward Entry](#)

FCST #11 - [Hard-to-hit Stop-losses](#)

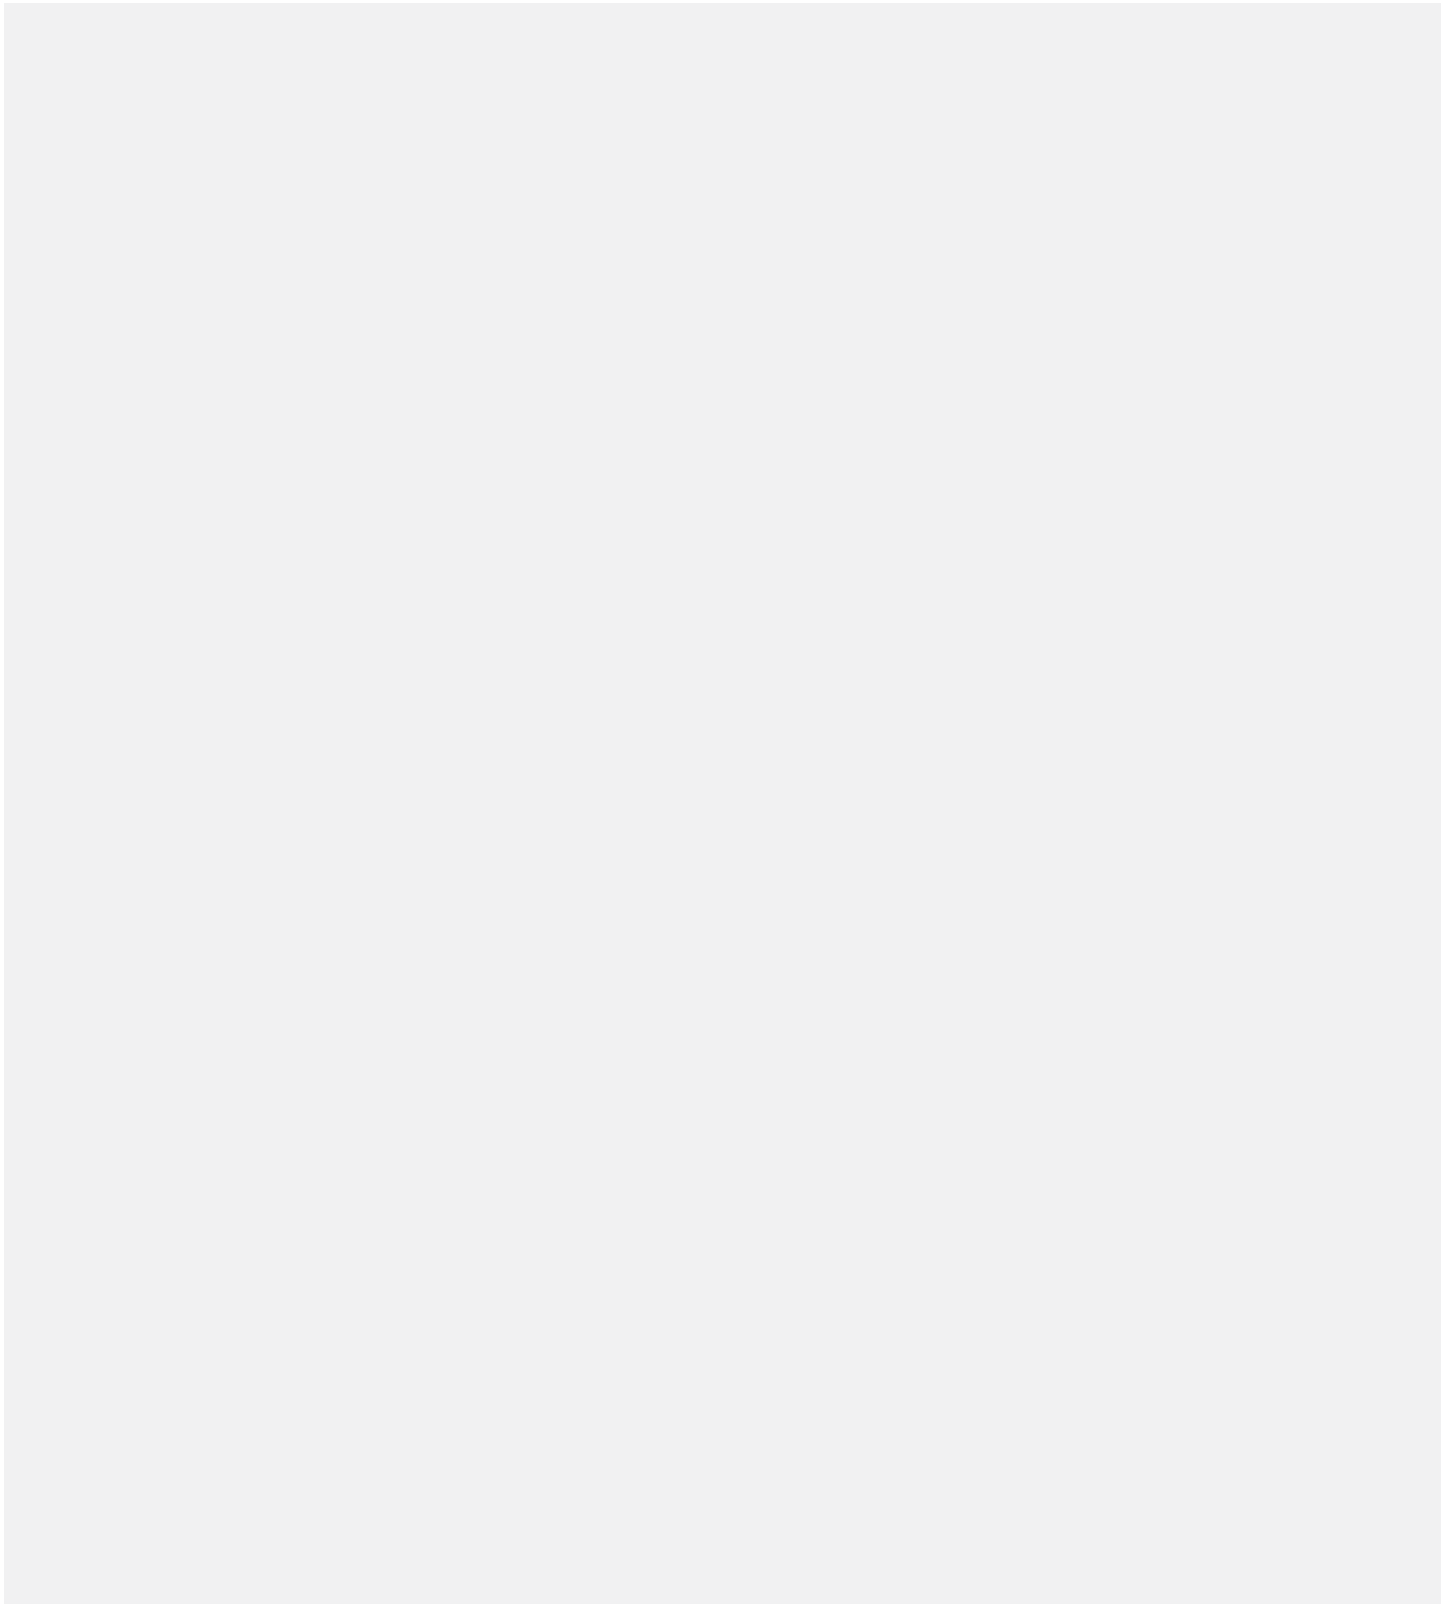

FCST #12 - [Trading What's In Front of You With a Complex Exit Strategy](#)

FCST #13 - [Advanced Trade Management Techniques](#)

Which high probability set-up conditions will you look for?

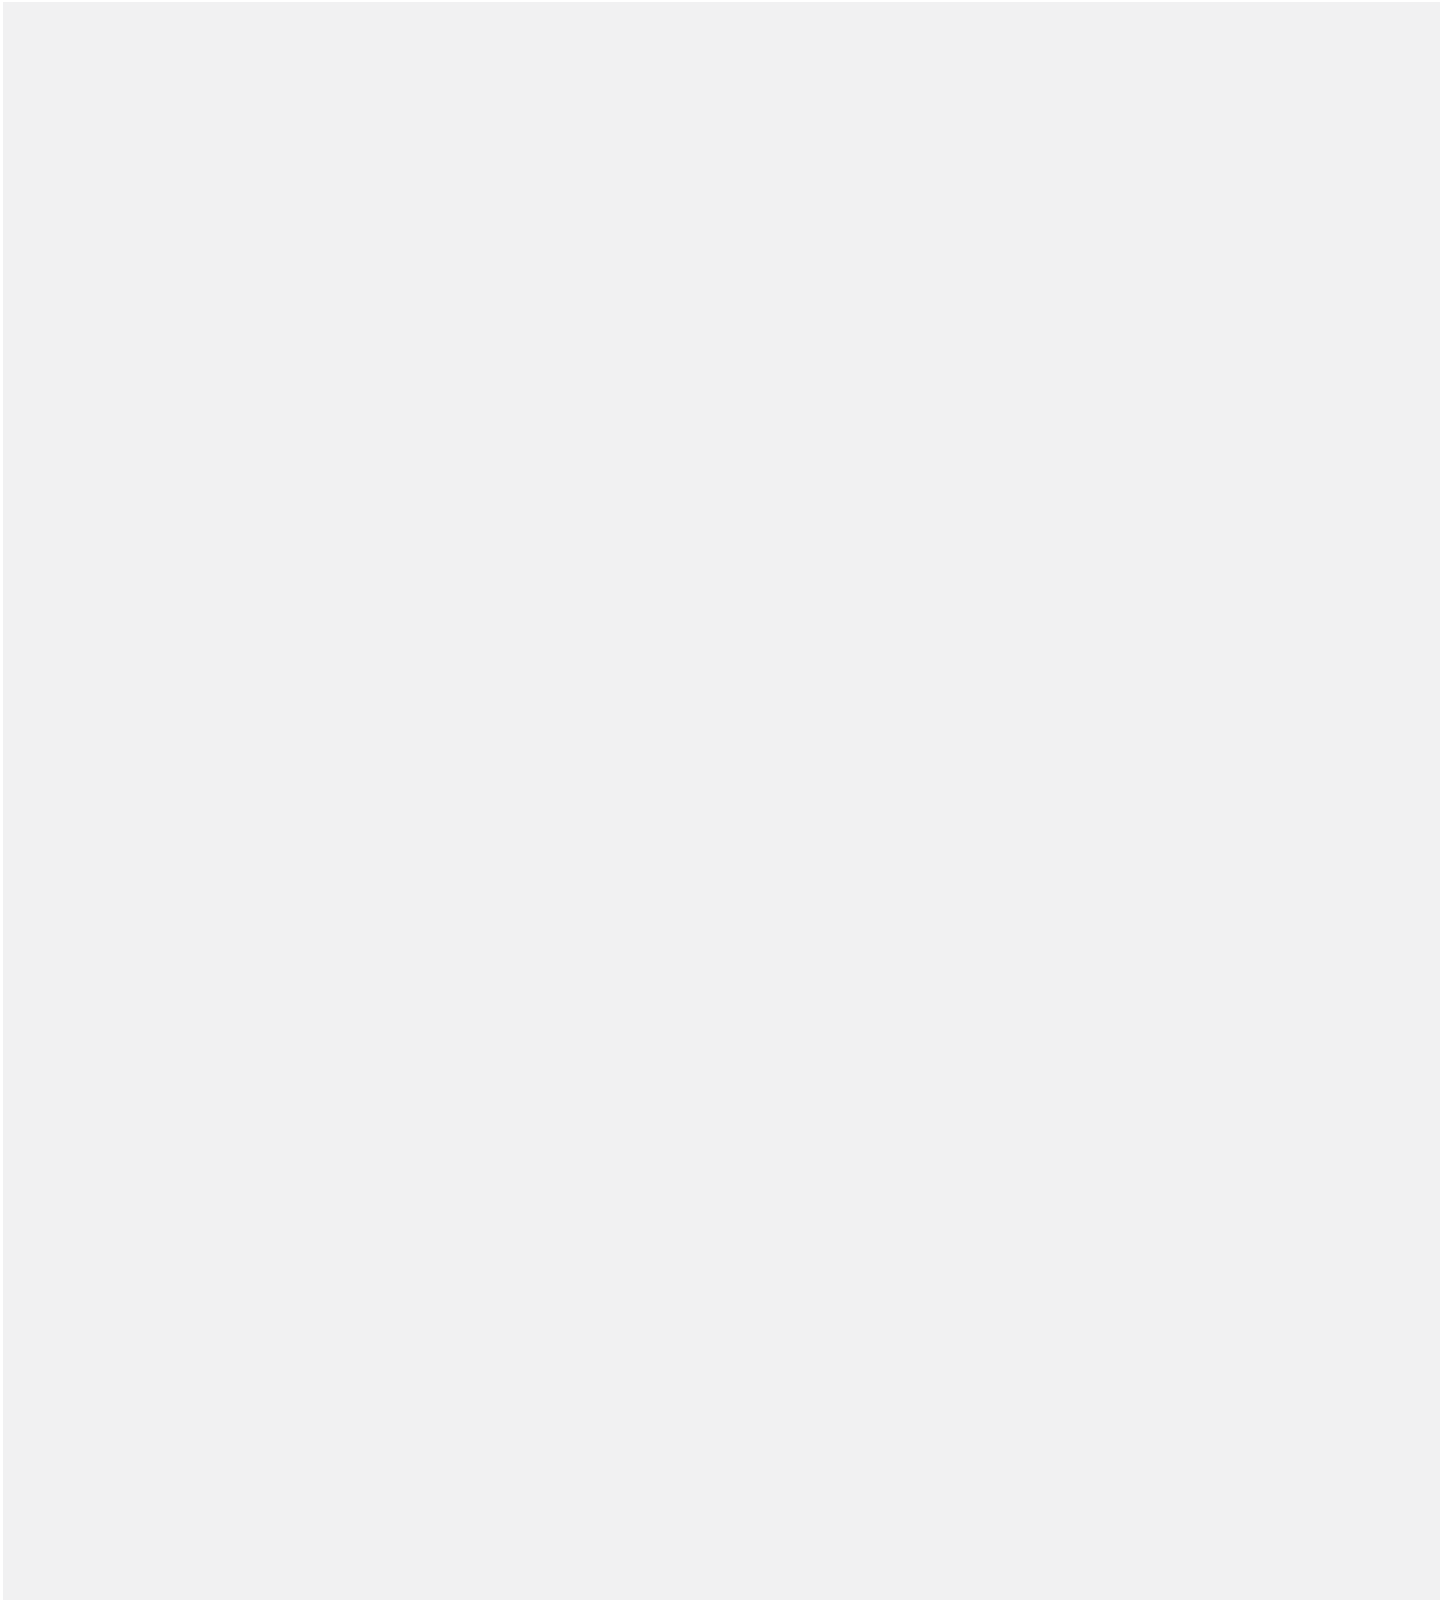

What is your “low risk” entry point?

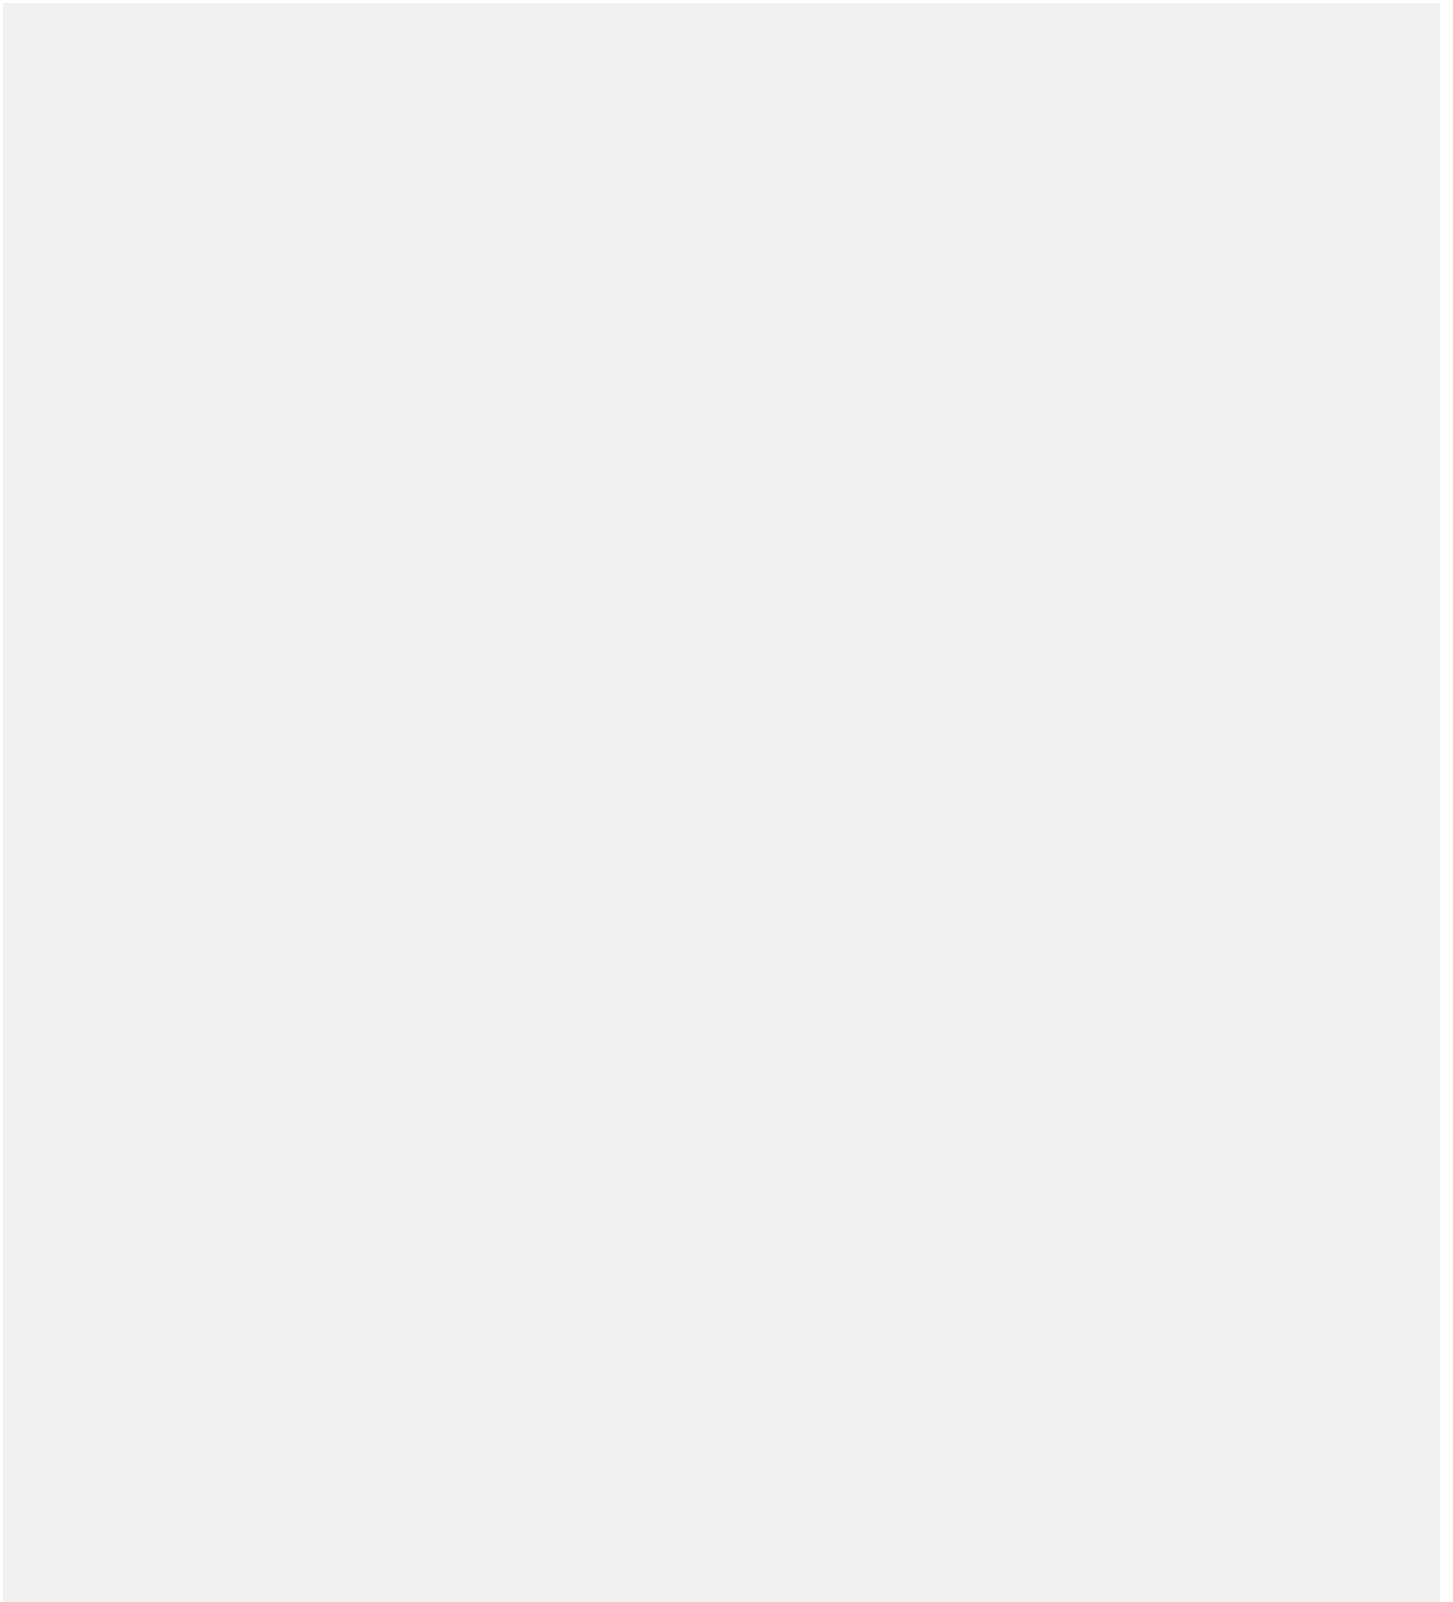

How will you determine a hard to hit place to put your stop-loss?

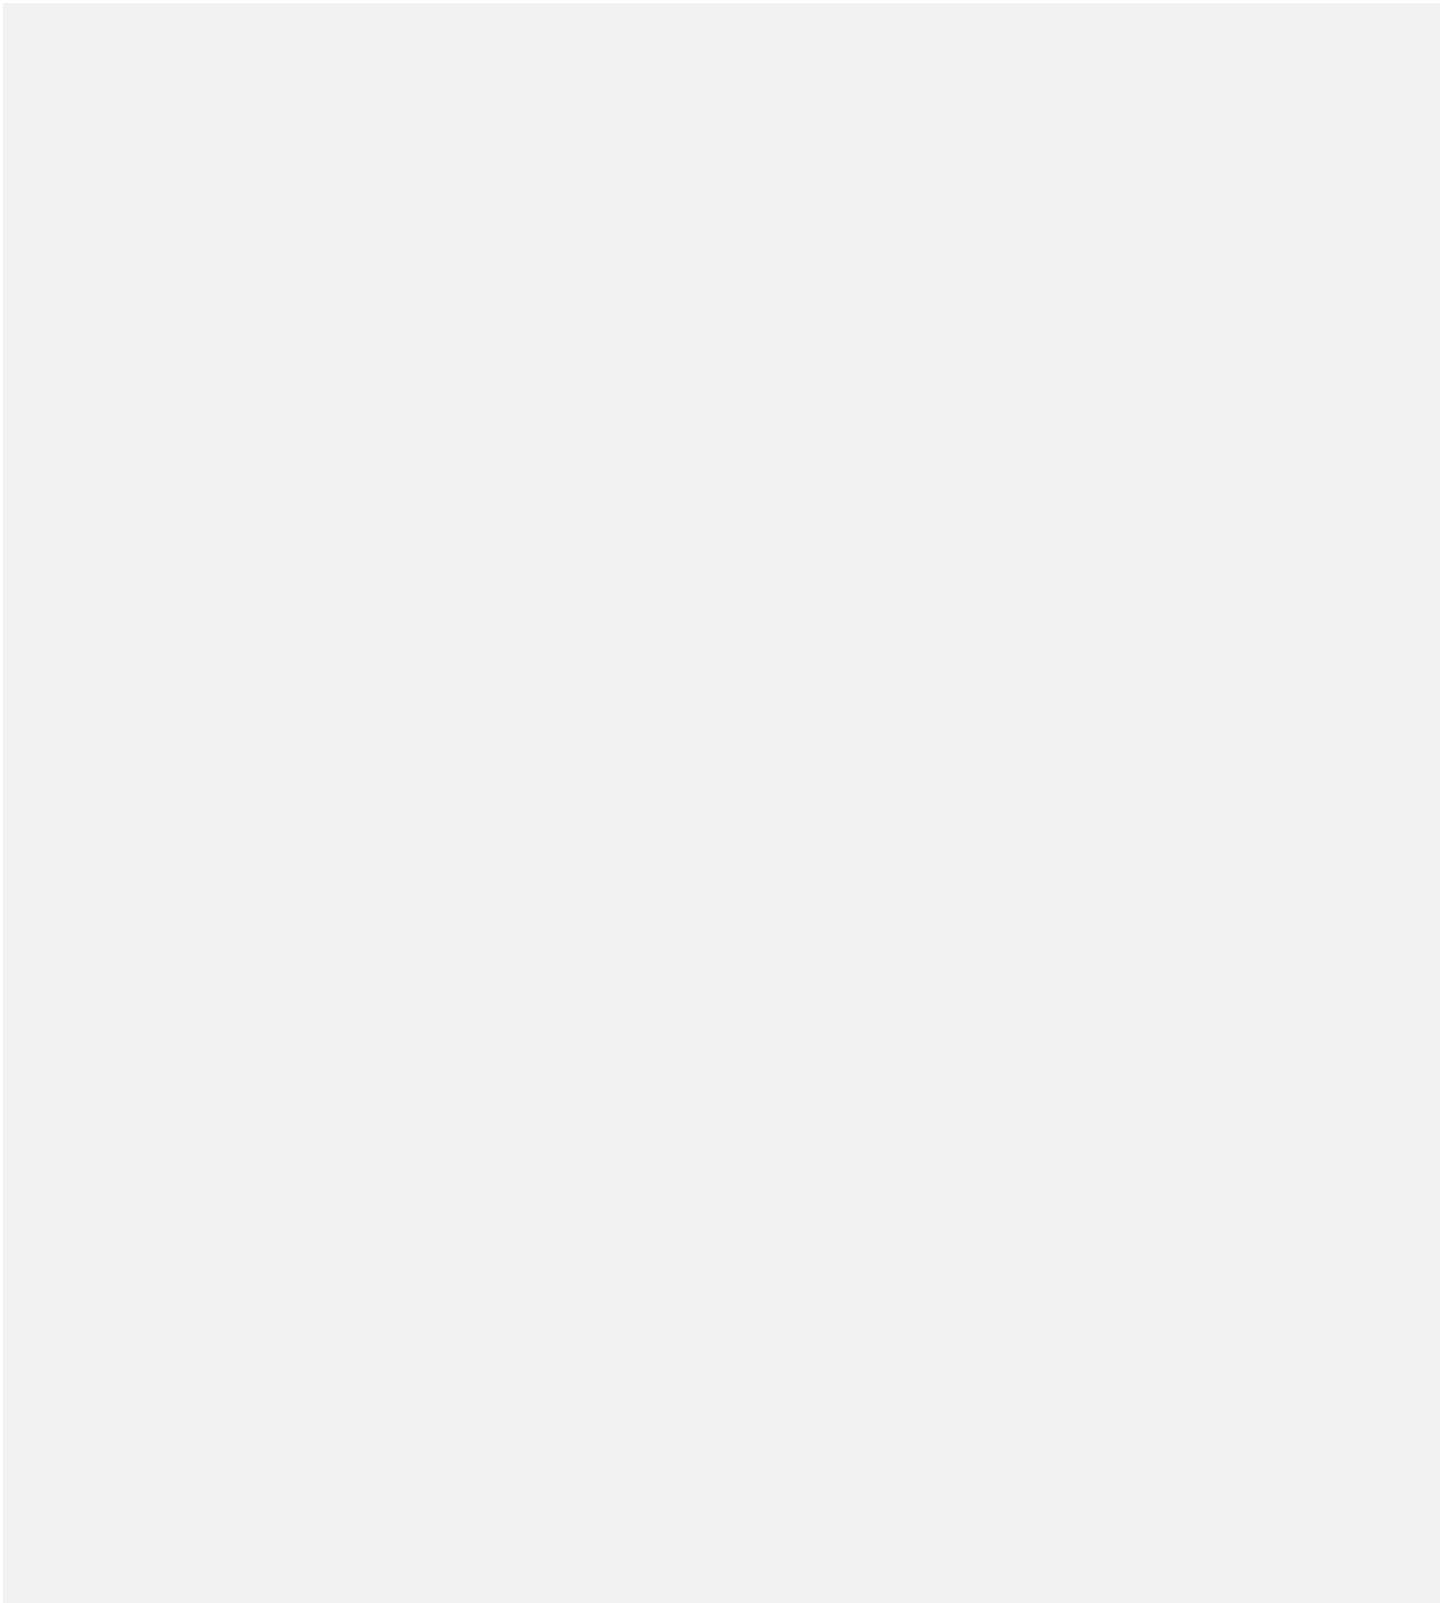

Which exits will you include in your system?

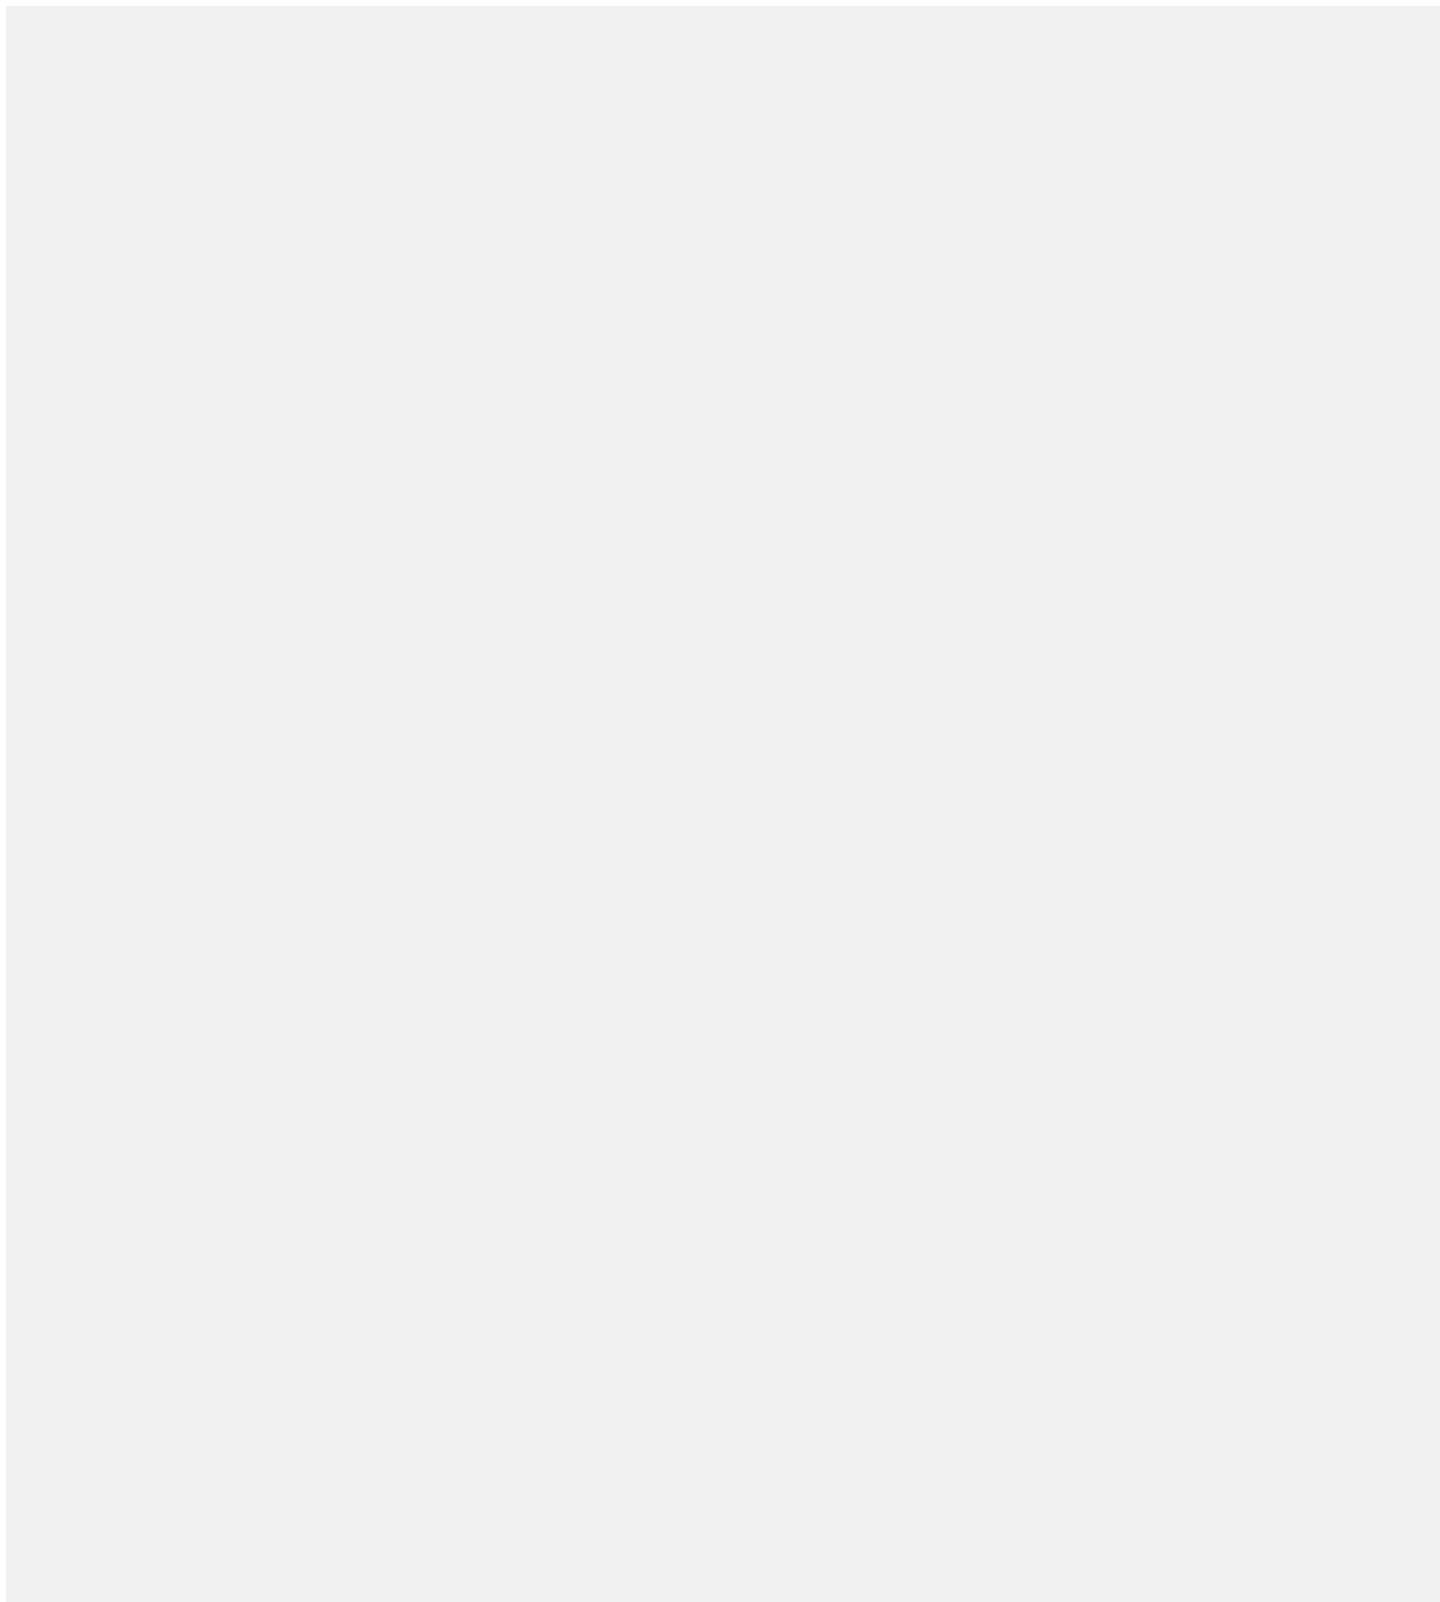

Will you scale-in to you positions? If so, how?

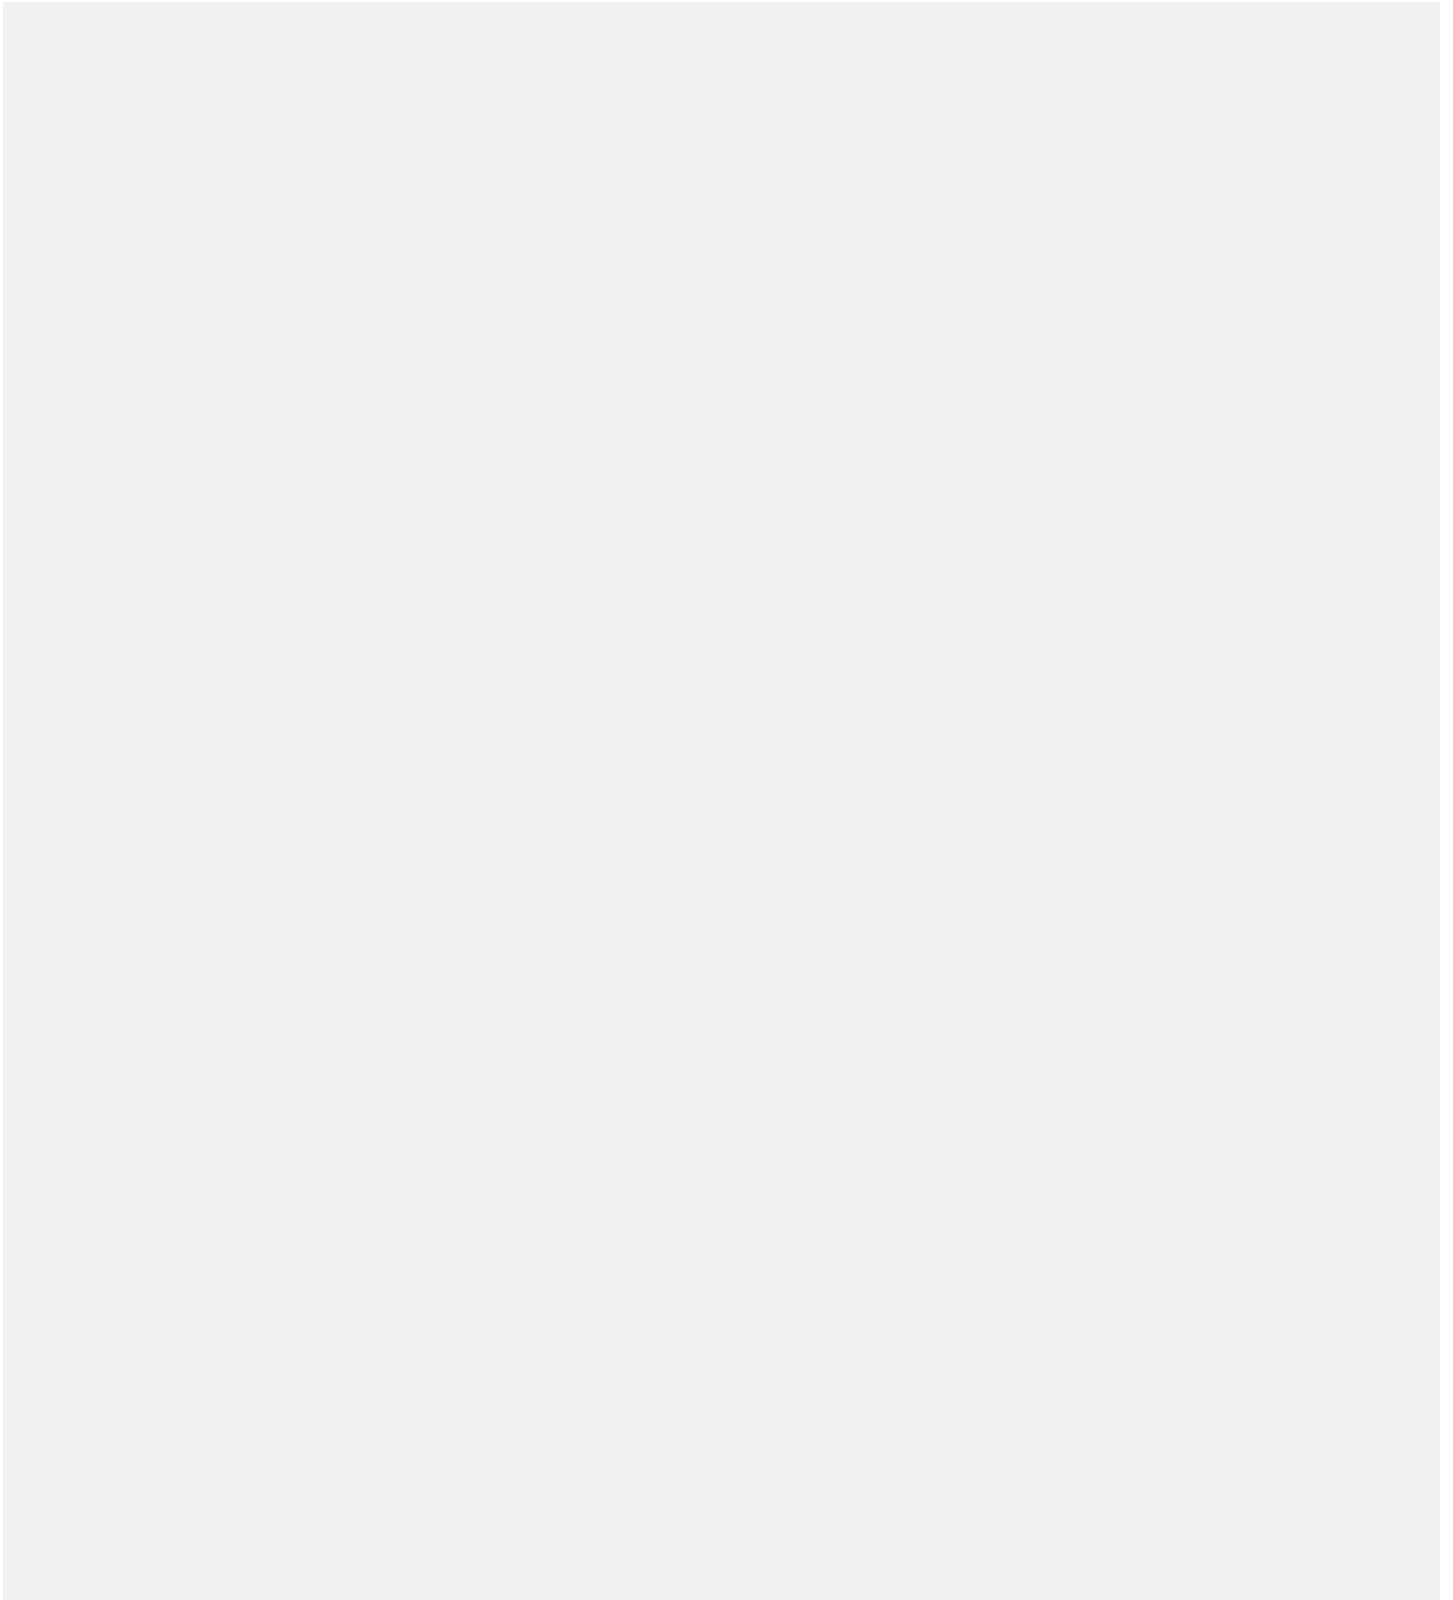

Will you scale-out of your positions? If so how?

Will you re-enter if you exit out of a position? If so how?

How will you manage your position around major news events?
